On a quest to make intelligent machines!

EDUCATION

Aug '15 - May '19   **BITS Pilani**, *B.E.(Hons) in Electronics and Instrumentation Engineering*.

EXPERIENCE

Professional

May '17 - Jul '17   **The Ramco Cements Ltd**, *Jaggayapeta, India*.
Software Engineering Intern
ADVISOR: Mr. Chengal Rao
FOCUS: Full-stack design of an inventory management web-application.

May '18 – Jul '18   **Apras Polymers & Engineering Co.Pvt. Ltd**, *Nashik, India*.
Software Engineering Intern
ADVISOR: Mr. Prakash Dhanokar
FOCUS: Modern and responsive business website design.

Academic

Dec '18 - May '19   **Central Electronics Engineering Research Institute**, *Pilani, India*.
Undergraduate Research Assistant
ADVISOR: Dr. Sumeet Saurav
FOCUS: ConvNet models for orientation-aware object detection on aerial images.

Jul '18 - Dec '18   **Central Electronics Engineering Research Institute**, *Pilani, India*.
Undergraduate Research Intern
ADVISOR: Dr. Sumeet Saurav
FOCUS: Instance segmentation models for real-time power-cable fault detection using autonomous drones.

Aug '17 - Dec '17   **BITS Pilani**, *Pilani, India*.
Undergraduate Research Assistant
ADVISOR: Prof. Anu Gupta
FOCUS: Design of fault tolerant Static RAM cells.

PROJECTS

2017   **Variable Computation in Recurrent Neural Networks:**
- Modified a RNN model to reduce the amount of required computation by ignoring redundant sequences.
- Implemented a scheduler for the RNN unit which decides the computation required at the current time-step.
- Reduced the number of operations for bit-level language modelling by 50%.

2019   **RISC Processor Design using HDL**
- Designed, programmed and tested 16-bit multi-cycle processor for a given set of instructions and constraints.
- Followed modular approach for programming the processor and its test bench, by dividing it into sub-modules such as memory, register file, ALU and control unit.

2018   **FIR flter design using an adjustable window function.**
- Implemented an adjustable window function based on the combination of Blackman and Lanczos window.
- Achieved a 75% better side-lobe roll off ratio than Lanczos window.

TECHNICAL SKILLS

Languages	Python · C · C++ · MATLAB · Shell · LaTeX· HTML · CSS · JavaScript
Frameworks	Keras · TensorFlow · PyTorch · OpenCV · Bootstrap · Git
Softwares	Simulink · LTspice · LabVIEW · EagleCAD · Proteus

RELEVANT COURSEWORK

Mathematics	Linear Algebra · Vector Calculus · Differential Equations · Probability & Statistics · Discrete Mathematics
Data Science	Machine Learning · Deep Learning · TensorFlow in Practice · Mathematics for Machine Learning · Neural Networks & Fuzzy Logic
EECS	Control systems · Signals & Systems · Digital Signal Processing · Digital Electronics · Analog Electronics · Microprocessors & Interfacing

ACHIEVEMENTS

2015	Amongst the top 1.5% students in the India in Joint Entrance Examination - Mains
2015	Amongst the top 5% students in the India in Joint Entrance Examination - Advanced
2014	Amongst the top 300 students selected for INPhO (Indian National Physics Olympiad)

EXTRACURRICULARS

Jul '17 - May '18	**IEEE Student Branch, BITS Pilani**, *Vice-Chairperson*, Pilani, India. Organized technical workshops, talks, and various student events throughout the year.
Aug '18 - Jul '19	**Society for Students Mess Services, BITS Pilani**, *Governing Council Member*, Pilani, India. Responsible for drafting the food menu and coordinating with third party contractors to prepare food. Also drafted a quality, health & safety environment framework and conducted regular safety audits.
